NACRS would like to introduce an excellent collection of 98 rare and landmark classic treatises dealing with the most crucial areas of Admiralty and Maritime Law & Procedure. Each book contained in the Library is in portable document file (PDF) format, and the required software can be downloaded directly through the main menu. The Library was compiled directly from that of Carlton A. Weiss, originally collected from the archives of Texas, Harvard, Cornell, Stanford, Tulane, Brooklyn, Yale, as well as other lesser known schools of law and libraries. Mr. Weiss's private library includes over 400 rare and antiquarian treatises, over 200 scanned law reviews and articles, and over 70 rare lectures, notes and letters amassed during archive research conducted while investigating Express Trusts under the Common Law in preparation for *Weiss's Concise Trustee Handbook*,[†] as well as Admiralty Law & Practice in preparation for *Weiss's Concise Handbook on Modern Admiralty*.
